

Position Title : Academic Support - English

Reporting to : Academic Lead

Location : Gurugram

Skill Required:

Creative thinker with a passion for educational excellence and innovation.

- Skilled in using digital tools and platforms for educational purposes.
- Ability to analyze educational data to inform content development and teaching strategies.
- Commitment to promoting inclusive and engaging learning environments. Proficiency in the digitization of educational content, with a strong portfolio showcasing digital teaching resources or projects.
- Deep understanding of elementary English pedagogy, curriculum standards, and the latest educational technology trends.
- Exceptional communication and collaboration skills, capable of working effectively with educators, instructional designers, and technology specialists

Key Roles & Responsibilities:

Teacher Training Content Creation: Develop and write high-quality training materials for elementary English teachers, focusing on effective teaching strategies, addressing common student misconceptions, and best classroom practices.

- Digitization of Training Programs: Collaborate with instructional designers to digitize teacher training programs and English teaching resources, ensuring they are accessible and engaging for a diverse audience.

Assessment and Evaluation: Design assessment tools to evaluate teacher progress within the training programs and refine instructional strategies based on feedback.

- Research and Innovation: Conduct ongoing research into the latest trends in English education and educational technology, integrating innovative practices into teacher training content.
